

Articles that appeared in *Rock Products* during 1997 are listed below by subject matter and title. The issue month and page number follow.

Associations

National Stone Assoc.—A decade of progress sets a foundation for the future, Jan.30

Editorial Comment

1997 forecast update: industry continues at record pace, June15
Aggregate-industry consolidation shows no signs of abating, Feb.15
Are employees treated like the important asset they are claimed to be, Sept.17
Clinton administration begins assault on highway construction, March13
For the sake of the industry, resolve association competition, Jan.15
Help wanted! coping with a worker shortage, Nov.11
More than a warm, fuzzy feeling, good PR affects the bottom line, Oct.14
Record second-quarter profits set a high standard for the industry, Aug.13
Reliable research funds remain elusive, July17
Road battles, part 2: what's wrong with this debate?, April15
Take those orange barrels personally; motorists do, Dec.15
Work the bugs out of superpave for successful implementation, May15

Equipment

1998 Buyer's guide, Nov.25
Automated haul trucks—Going their own way, April49
Bag and belt cleaner reduces employee dust exposure, March41
Blast fragmentation measurement system: the new "rock video," Jan.44
Computer program helps optimize drill-bit selection and operating parameters, Jan.43
Construction machinery equipped to call home, Sept.82
The dirt on excavators, Feb.45
Dust-control products roundup, Oct.38
Equipment test: Cat's 992G raises the mark for large wheel loaders, Dec.44
Flexibility that creates complexity—making sense of impact crushers, May42
Hammering away at secondary-breaking costs, Aug.40
Hillhead Quarry Show—Outstanding in a quarry, Sept.43
Moving product to market: on-highway trucks to carry the load, July52
New dispatch software is a hot ticket, July44
New drill dust cover insert system reduces contractor's costs and downtime, Jan.42
Office automation: business-card scanners help maintain up-to-date contact files, May50
Sensors on bearings and gearboxes can increase conveyor uptime, March38

Two new industry web sites provide useful tools, Jan.74
Wheel loader refinements improve face and stockpile operations, June42

Energy

Successfully negotiating lower rates from your electric company, part 1, April42
Successfully negotiating lower rates from your electric company, part 2, May34
Successfully negotiating lower rates from your electric company, part 3, June28

Environment/Reclamation

An artist with a blade, Oct.27
Dust-control plan cherry of an idea, Oct.32
Students see green potential in quarried land, March35
Wetlands policy gets swamped, June37

Maintenance

Getting the most from old equipment, Nov.12
A guide to maintaining hydraulic systems, May16
New publication emphasizes operator-performed maintenance procedures, April17
Oil and grease play big role in bearing longevity, Aug.14
Predictable quarry machine maintenance: a tried and proven new idea, Jan.20
Proper installation, removal and environment keep bearings rolling, Sept.18
A primer for pump power selection, part 1, Feb.18
A primer for pump power selection, part 2, March15
Sound maintenance more than its own reward, Dec.16
Without proper loader tire maintenance, an operation could grind to a halt, June16

Marketing/Specifications

Coal producer seeks aggregate from FGD sludge, June82
Effect of aggregate type on pavement friction, March66
Groups continue promotion of concrete homes, Oct.62
Intermodal-container shipment of bulk materials, Aug.74
Niche market covering the spread, Oct.24
Partnering helps increase use of base and fines, May82
Putting more fines in flowable fill, July32
Re-evaluating stone-sand specs for concrete, July26
Superpave restricted zone enters the twilight zone, Dec.38

Operations

Blue Diamond Materials—Serving Las Vegas, May27
Camas-Shiely Div.—Operators and builders team up to reach ambitious goals, Sept.28

Cretex Sand & Gravel—Mile-long conveyor keeps company in the green, Aug.30
Dacotah Cement—Continually improving quarry operations, Jan.35
Eastside Reservoir—California water project needs a river of crushed rock, Feb.28
FNF Construction—Washing without water, Oct.20
France Stone—A fresh start, March27
Glenn O. Hawbaker—Automating a small plant, March31
Granite Construction—Supplying Arizona, Sept.32
Pioneer Aggregate—High-tech automation for sand & gravel, Feb.39
Tarmac America, Hanover Quarry—Stone proves stronger than steel, June24
U.S. Silica—900,000 tons of rock in a single shot, Aug.26
Wayne Gravel—High-tech dredge keeps growth afloat, Sept.37

Public Relations

Changing North America's mind-set about mining, Aug.34
Imaginative activities and community involvement help make quarry open house a success, Feb.74
Pennsylvania outlines new blast-complaint protocol, July82

Recycling

Chaos or order: the status of today's concrete & asphalt recycling industry, April32
Crushing stone and concrete with a portable plant gives Yahara "two for the money," April53
Recycling: a resource boon or aggregate bust?, April39

Safety

A fair warning from MSHA: expect to be inspected for haulage safety, April82
Mine death toll hits 7-year high, Nov.22
Safety underground: the regulation maze, part 1, April46
Safety underground: rules in the making, part 2, May38
Safety underground: standards for air flow and quality, part 3, June33
Safety underground: fundamentals of mine ventilation, part 4, July38
Scaling accidents in underground stone mines, Jan.39

Statistics

1998 aggregate-industry forecast, Dec.29
Aggregate demand up 6% nationwide in 1996, April16
Concrete prices up 21%, asphalt prices slip 2%, Feb.16
First-quarter aggregate production increased 10%, July19
Gains in 1996 aggregate demand are widespread, Jan.18
Wet weather hampers second-quarter production, Sept.20
